

MEET THE TEAM

Salem Career and Technical High School provides health services throughout the school day. The Health Services Team is composed of a school physician, a certified school nurse and professional consultants.

There is a certified school nurse available to students during the school day to address any health care needs of the student. If a student is ill or injured during the school day, the school nurse will evaluate the student and determine whether he/she is able to return to class, needs to go home, or requires a medical referral. Medical treatment will be administered to your child according to standing orders from the school physician, and parent/guardian will be notified of any illness or injury.

Before reporting to the nurse's office from the classroom, a student must secure a pass from a teacher. Students are not permitted to visit the nurse's office without a pass unless it is an emergency situation.

If you need to contact the school nurse or have any questions she is available 8AM to 2:30PM Monday to Friday.
